

Joanna Koh

"K" Line–MaritimeONE Scholarship
Bachelor of Science in Maritime Studies, NTU, Class of 2007

"My interest was stimulated when I was pursuing a Diploma in Maritime Transportation Management back in Singapore Polytechnic. The experienced lecturers' stories and my six-month internship with a major oil company made me realise how dynamic and challenging the maritime industry is. This spurred me to pursue the Maritime Studies degree programme in Nanyang Technological University. Being awarded the "K" Line-MaritimeONE Scholarship was really a bonus. I believe that the scholarship will provide rich opportunities and experience which will prepare me competently when I join the maritime industry."

TORM–MaritimeONE Scholarship
Bachelor of Science in Maritime Studies, NTU, Class of 2005

"The maritime industry is full of opportunities. The vital role it plays in commerce attracts me to take up the Maritime Studies (BSc) course in Nanyang Technological University. The MaritimeONE Scholarship offers me the chance to pursue my interest and acquire knowledge about the maritime industry. The overseas exchange programme in Norway provides me with the chance to broaden my horizons and is an experience not to be missed!"
