

Shermaine Lin

A.P. Moller Singapore–MaritimeONE Scholarship
Bachelor of Science in Maritime Studies, NTU, Class of 2005

“NTU's BSc Maritime Studies course has equipped me with the basic knowledge to begin my career in the maritime industry. Now, I am looking forward to all the experience I can gain from being in the Industry.”

Shermaine's interest in the shipping and maritime industry started during her 'A' levels. She is especially intrigued by the vibrant maritime industry's around-the-clock business. This could be attributed to her six-month stint in her uncle's freight-forwarding company. She has been selected to receive this award because of her excellent results at university so far – a consequence of her persevering attitude. She aspires to work in and eventually land a management position within the maritime industry.

Leon See Toh

PCL–MaritimeONE Scholarship
Bachelor of Science in Maritime Studies, NTU, Class of 2008

“Opting for Maritime Studies in NTU is one of the best decision made this far in my life.”

Leon may not be born with a silver spoon in his mouth, but that did not deter him from working hard to achieve his goals. He is determined to excel in his academia results and his career in the near future. A self-confessed ambitious and goal-oriented person, Leon aspires to be a ship planner, a profession which excites him greatly. He believes strongly that the Singapore maritime industry will be able to present a sea of career opportunities and allow him to explore his ability and expertise to the fullest. With his fervour, there is no doubt he will achieve his goal.

Jason Teo

RCL Feeder–MaritimeONE Scholarship
Bachelor of Science in Maritime Studies, NTU, Class of 2008

"I believe each and every individual is important and critical in the maritime industry, and I'm honoured to have the opportunity to pursue my education in Maritime Studies with the RCL Feeder scholarship."

'Meticulous', 'competent', 'conscientious', 'mature', 'humble', are just some of the many qualities that comes to mind when former working acquaintances of Jason recall their working experience with him. As a diploma graduate specializing in logistics and operations, Jason has set his sights clearly – to pursue a maritime degree. He believes that this decision would allow him to scale greater heights in the maritime industry when he steps into the workforce. He firmly believes that he would be able to contribute positively to his future employer and aspires to learn and apply his maritime knowledge he has acquired in school into good use.

Koh Yong Jie

TORM–MaritimeONE Scholarship
Bachelor of Science in Maritime Studies, NTU, Class of 2006

"Two of the key reasons that attract me to the maritime industry are its diverse and international nature. The MaritimeONE scholarship has provided me with opportunities to study and work abroad. I believe the overseas stints would be very beneficial for my future career in the maritime industry." – Yong Jie

It has always been the ambition of Yong Jie to experience life onboard a ship from a tender age. Therefore, it came as no surprise to his family and friends when Yong Jie enrolled himself for the 'Bachelor of Science in Maritime Studies' course in Nanyang Technological University upon receiving his 'A' level results. - The diversity and vibrancy of the maritime industry excites him. He is waiting in anticipation to work alongside with maritime professionals from different parts of the world. Yong Jie is particularly keen to venture into the shipbroking, ship financing, ship planning and port management sectors. He hopes to play an active role in the maritime industry to contribute to Singapore's vision to be the leading International Maritime Centre.

Amanda Lee

“K” Line–MaritimeONE Scholarship

Bachelor of Science in Maritime Studies with Business Major, NTU, Class of 2008

“I am thrilled to embark on the exciting Maritime Studies programme which would prepare me for the diversity in the maritime industry.”

Though Amanda is new to the maritime industry, she is no stranger to the dynamism and the importance of the Singapore maritime industry. She believes that there are ample career opportunities and career advancements are bountiful if one is willing to work hard. Amanda is impressed by the numerous accolades and achievements that the local maritime industry has achieved and the credible reputation it has established over time. Inspired by these achievements, she hopes to be able to play an active role in this vital industry. Amanda values every learning opportunity that comes her way and firmly believes that a career in the maritime industry would realize her aspiration to learn and grow on the job, thereby broadening her horizon.

Chie Khang Ning

Keppel–MaritimeONE Scholarship

Bachelor of Science in Maritime Studies with Business Major, NTU, Class of 2008

“Want to have a fulfilling and exciting career? Join the maritime industry, where you get to feel the world's heartbeat!”

Khang Ning is a young girl with a big heart. She is an active volunteer and dedicates a significant part of her time to community work and helping the underprivileged. Besides good academic results, Khang Ning also has a natural flair for writing and has completed stints in the Singapore Press Holdings. She looks forward to working in fast-paced environment that offers ample learning opportunities and global exposure. She believes that the maritime industry is the right move forward. She yearns to join the maritime industry upon completion of her studies and hopes to play her part to make Singapore a leading International Maritime Centre.

Lin Shimin

NOL–MaritimeONE Scholarship

Bachelor of Science in Maritime Studies with Business Major, NTU, Class of 2008

"The maritime industry is an industry with so much diversity. I know that I would be able to discover plenty of opportunities in the industry. I believe that the maritime industry will definitely be an industry that I can grow with and be worth my dedication in the next few years to come."

Mention Shimin's name and the teachers who have taught her previously would have lots to share. She was the apple in her teachers' eyes, with excellent academic records and an affable nature. Her kindness and compassion shines, with her volunteering at YMCA to help with the intellectually disabled people. Though young, Shimin is matured and has a clear vision of her ideal career path which steers her decision in signing up for the Bachelor of Science in Maritime Studies course. She strongly believes that the maritime industry is the right industry for her to enter and advance her career. She is determined to carve her life-long career in the maritime industry and contribute her part in this global maritime business.

Huang Yuling

PIL–MaritimeONE Scholarship

Bachelor of Science in Maritime Studies with Business Major, NTU, Class of 2008

"I believe that the global nature of the maritime industry will allow me to work with people from different cultures and backgrounds and this would help me to gain a better understanding of the world."

Many people were surprised by Yuling's decision to study a course in Maritime Studies. They had many misconceptions about the maritime industry as one that is backward and labour-intensive. However, their opinions did not deter her from being true to herself and her passion. She has a clear understanding of the importance of the Singapore maritime industry, and how it has shaped Singapore's past and present economy. Yuling recognizes the strong growth that the Singapore maritime industry has achieved in recent years and is confident that the industry is poised to further excel in the years to come. She is passionate about pursuing a maritime career and is determined to make it her long-term career.

Adrian Lin

SMA–MaritimeONE Scholarship

Bachelor of Science in Maritime Studies with Business Major, NTU, Class of 2008

“Pursuing a degree in Maritime Studies with Business Major came as a natural choice to me after getting my diploma. I believe that majoring in these two majors can aid me greatly in achieving my ultimate dream career in years to come! For this, I really thank SMA and SMF for providing me this opportunity to strive on further in the maritime industry!”

Adrian is not your normal straight ‘A’ student. However, his hard work was evident during his polytechnic days. His striking results during his course at Singapore Maritime Academy (SMA), Singapore Polytechnic earned him a scholarship with SMA. His entry into the maritime sector was not a planned occurrence. He learnt about the diversity of the industry through a friend’s father. Indeed, undertaking this course has broadened Adrian’s horizons and drove him to uncover the precious knowledge the maritime industry has to offer.

Cheong Yan Guo

LRET–MaritimeONE Scholarship

Bachelor of Engineering in Naval Architecture with Specialisation in Marine Engineering, Newcastle University with NP and SP, Class of 2008

“Whether in education, or in the field of ship repairs – if you believe in yourself; believe that you can perform and achieve to be the best you can be, nothing can ever stop you from attaining the goals you have set for yourself!”

Yan Guo’s enthusiasm in the maritime industry can hardly be suppressed. His motivation is driven by his love for nature’s creation – the beautiful and amazing oceans. He is also very much intrigued by the working principles of the machinery and the engineering of vessels. To him, he feels that the maritime industry – is almost akin to a misunderstood child, and people do not understand the actual workings of the industry and some have negative stereotypical views of the industry. But Yan Guo has set his mind to be a leading maritime engineer in Singapore. He hopes to contribute to Singapore’s marine trade growth in his own way and watch over the safety and condition of our fleet.

Khine Lin Zaw

SMA–MaritimeONE Scholarship

Bachelor of Engineering in Naval Architecture with Specialisation in Offshore Engineering, Newcastle University with NP and SP, Class of 2008

“I’m in awe of the vibrancy and growth of the Singapore maritime industry. I am really happy to receive the SMA–MaritimeONE scholarship as this would definitely bring me closer to my dream to become a Sea Captain.”

Khine Lin Zaw is the only non-Singaporean candidate among the 2008 MaritimeONE scholars. Happily married, the young man has set his mind to be a captain of the sea, just like his father. Since young, Lin Zaw has been fascinated by ships. His passion for seafaring led him to Singapore where he pursued the Diploma in Marine Engineering at Singapore Polytechnic. He managed to secure a job as Assistant Engineer with American Eagle Tankers upon graduation. Currently, he works at Keppel FELS as a Commissioning Engineer and has obtained permanent residency here. He looks forward to contributing further to the vibrant Singapore maritime scene.

[About Singapore Maritime Academy, Singapore Polytechnic](#)

Tan Hwee Lin

SMA–MaritimeONE Scholarship

Bachelor of Maritime Operations, SMA and MIWB, Class of 2008

“Despite having a lot of potential in the maritime industry in the years to come, not many have perceived the maritime industry as a growing industry. I hope more people will become more aware of the importance of our maritime industry and I look forward to contributing to the propulsion of the Singapore maritime scene in future.”

Although Hwee Lin has harboured dreams of becoming an engineer when young, he was lured by the dynamic maritime sector and changed his vision to work towards the goal of becoming a ship captain. Hwee Lin is perhaps the most qualified among the whole cohort of scholarship recipients to vouch for the vibrancy of the maritime industry. He is currently the 2nd Officer in shipboard operations with the American Eagle Tanker Pte Ltd and has been working in the maritime industry for the past five years. Hwee Lin possesses a positive working attitude and an eager mind to learn. Pursuing the Bachelor of Maritime Operations seems like the natural progression. With fierce competition from many young applicants also vying for the same scholarship, receiving the award has been a pleasant surprise.
